

ENIGMA TITRISATION INVESTMENT

ENIGMA TITRISATION INVESTMENT

This financial technique that enables financial institutions to convert their debts to businesses or individuals into marketable securities.

The interest for these financial institutions is to transfer to buyers of these securities the risk of non-repayment of this debt.

ENIGMA brings you its expertise in your titrisation projects, these financial products very common on the US markets are more and more used and we come as partners on your debt recovery projects

We bring you our support, we can help you to finance or invest, according to your project and the amount of your investment

ENIGMA can give all your expectations and this area is an important part of our development
